

## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT ("Assignment") is made September \_\_, 2006, by and between Aurora Discovery, Inc., a Delaware corporation ("Assignor"), and Beckman Coulter, Inc., a Delaware corporation ("Assignee").

Assignor and Assignee are parties to that certain Asset Purchase Agreement, of even date herewith, pursuant to which Assignee will purchase Assignor's low volume liquid handling, dispensing and detection instrumentation and systems business (the "Purchase Agreement").

As set forth in the Purchase Agreement and included in its sale of Purchased Assets to Assignee, Assignor has agreed to assign to Assignee all of its right, title and interest in and to the Seller Proprietary Rights, including the Patents and Trademarks identified in Exhibit A hereto. This Assignment effects the foregoing.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Definitions. All undefined capitalized terms used herein shall have the meanings ascribed to such terms in the Purchase Agreement.
2. Assignment. Assignor hereby irrevocably assigns and conveys to Assignee, all of Assignor's worldwide right, title and interest of whatever nature in and to the Seller Proprietary Rights. Assignor acknowledges and agrees that the foregoing assignment and conveyance of the Seller Proprietary Rights shall include, without limitation, the assignment and conveyance to Assignee of the Patents and Trademarks identified in Exhibit A hereto.
3. Further Assurances. Assignor shall promptly take all action deemed necessary by Assignee to facilitate and further memorialize and effect the assignment and conveyance of the Seller Proprietary Rights to Assignee described in Section 2 herein.
5. Miscellaneous. This Assignment: (i) shall be governed by California law, without reference to its conflict of law principles; (ii) together with the Purchase Agreement and the agreements and transactions described therein, sets forth the entire understanding of Assignor and Assignee, and supersedes all prior oral or written understandings and agreements with respect to the subject matter hereof; (iii) shall not be amended or terminated unless in a writing signed by Assignor and Assignee that expressly sets forth such amendment or termination; (iv) shall be binding upon and inure to the benefit of the Assignee and Assignor and their respective successors and assigns; (v) if held to be invalid or unenforceable, in whole or part, such term or provision shall be ineffective only to the extent of such invalidity or unenforceability without invalidating or rendering unenforceable the remaining terms and provisions of this Assignment; and (vi) may be executed in counterparts, each of which shall be deemed an original and which together shall constitute one and the same instrument. The waiver of any breach of this Assignment shall not be construed to be the waiver of any subsequent breach. The non-prevailing party in any action arising out of or related to this Assignment shall pay the prevailing party all reasonable attorneys' fees, costs and expenses incurred in such action.

IN WITNESS WHEREOF, the parties hereto have caused this Assignment to be executed by their authorized officers, all as of the date and year first above written to be effective as of the Closing.
